

CareerOS Product Tour

For Students & Alumni

Welcome to CareerOS 🙌

Your career hub, wherever you are in it.

CareerOS is where you explore career paths, build skills, and connect with employers, all in one place. Still figuring out what's next? Start there. Already deep into applications or years into your career? Use it to stay connected and keep moving.

Your career isn't just about what you know. It's about who you know too. Networking isn't a cringey side hustle. It's how opportunities actually happen, for students and alumni alike.

How CareerOS helps

Whether you're a student or an alum, here's what you can do inside CareerOS:

- ✓ Explore career paths and industries
- ✓ Connect with alumni and employers
- ✓ Keep track of your goals with smart to-dos
- ✓ RSVP to events and book coaching sessions
- ✓ Build great applications with AI help

...and more. Let's take a tour! 🙌

Inbox

Write your outreach message instantly with AI.

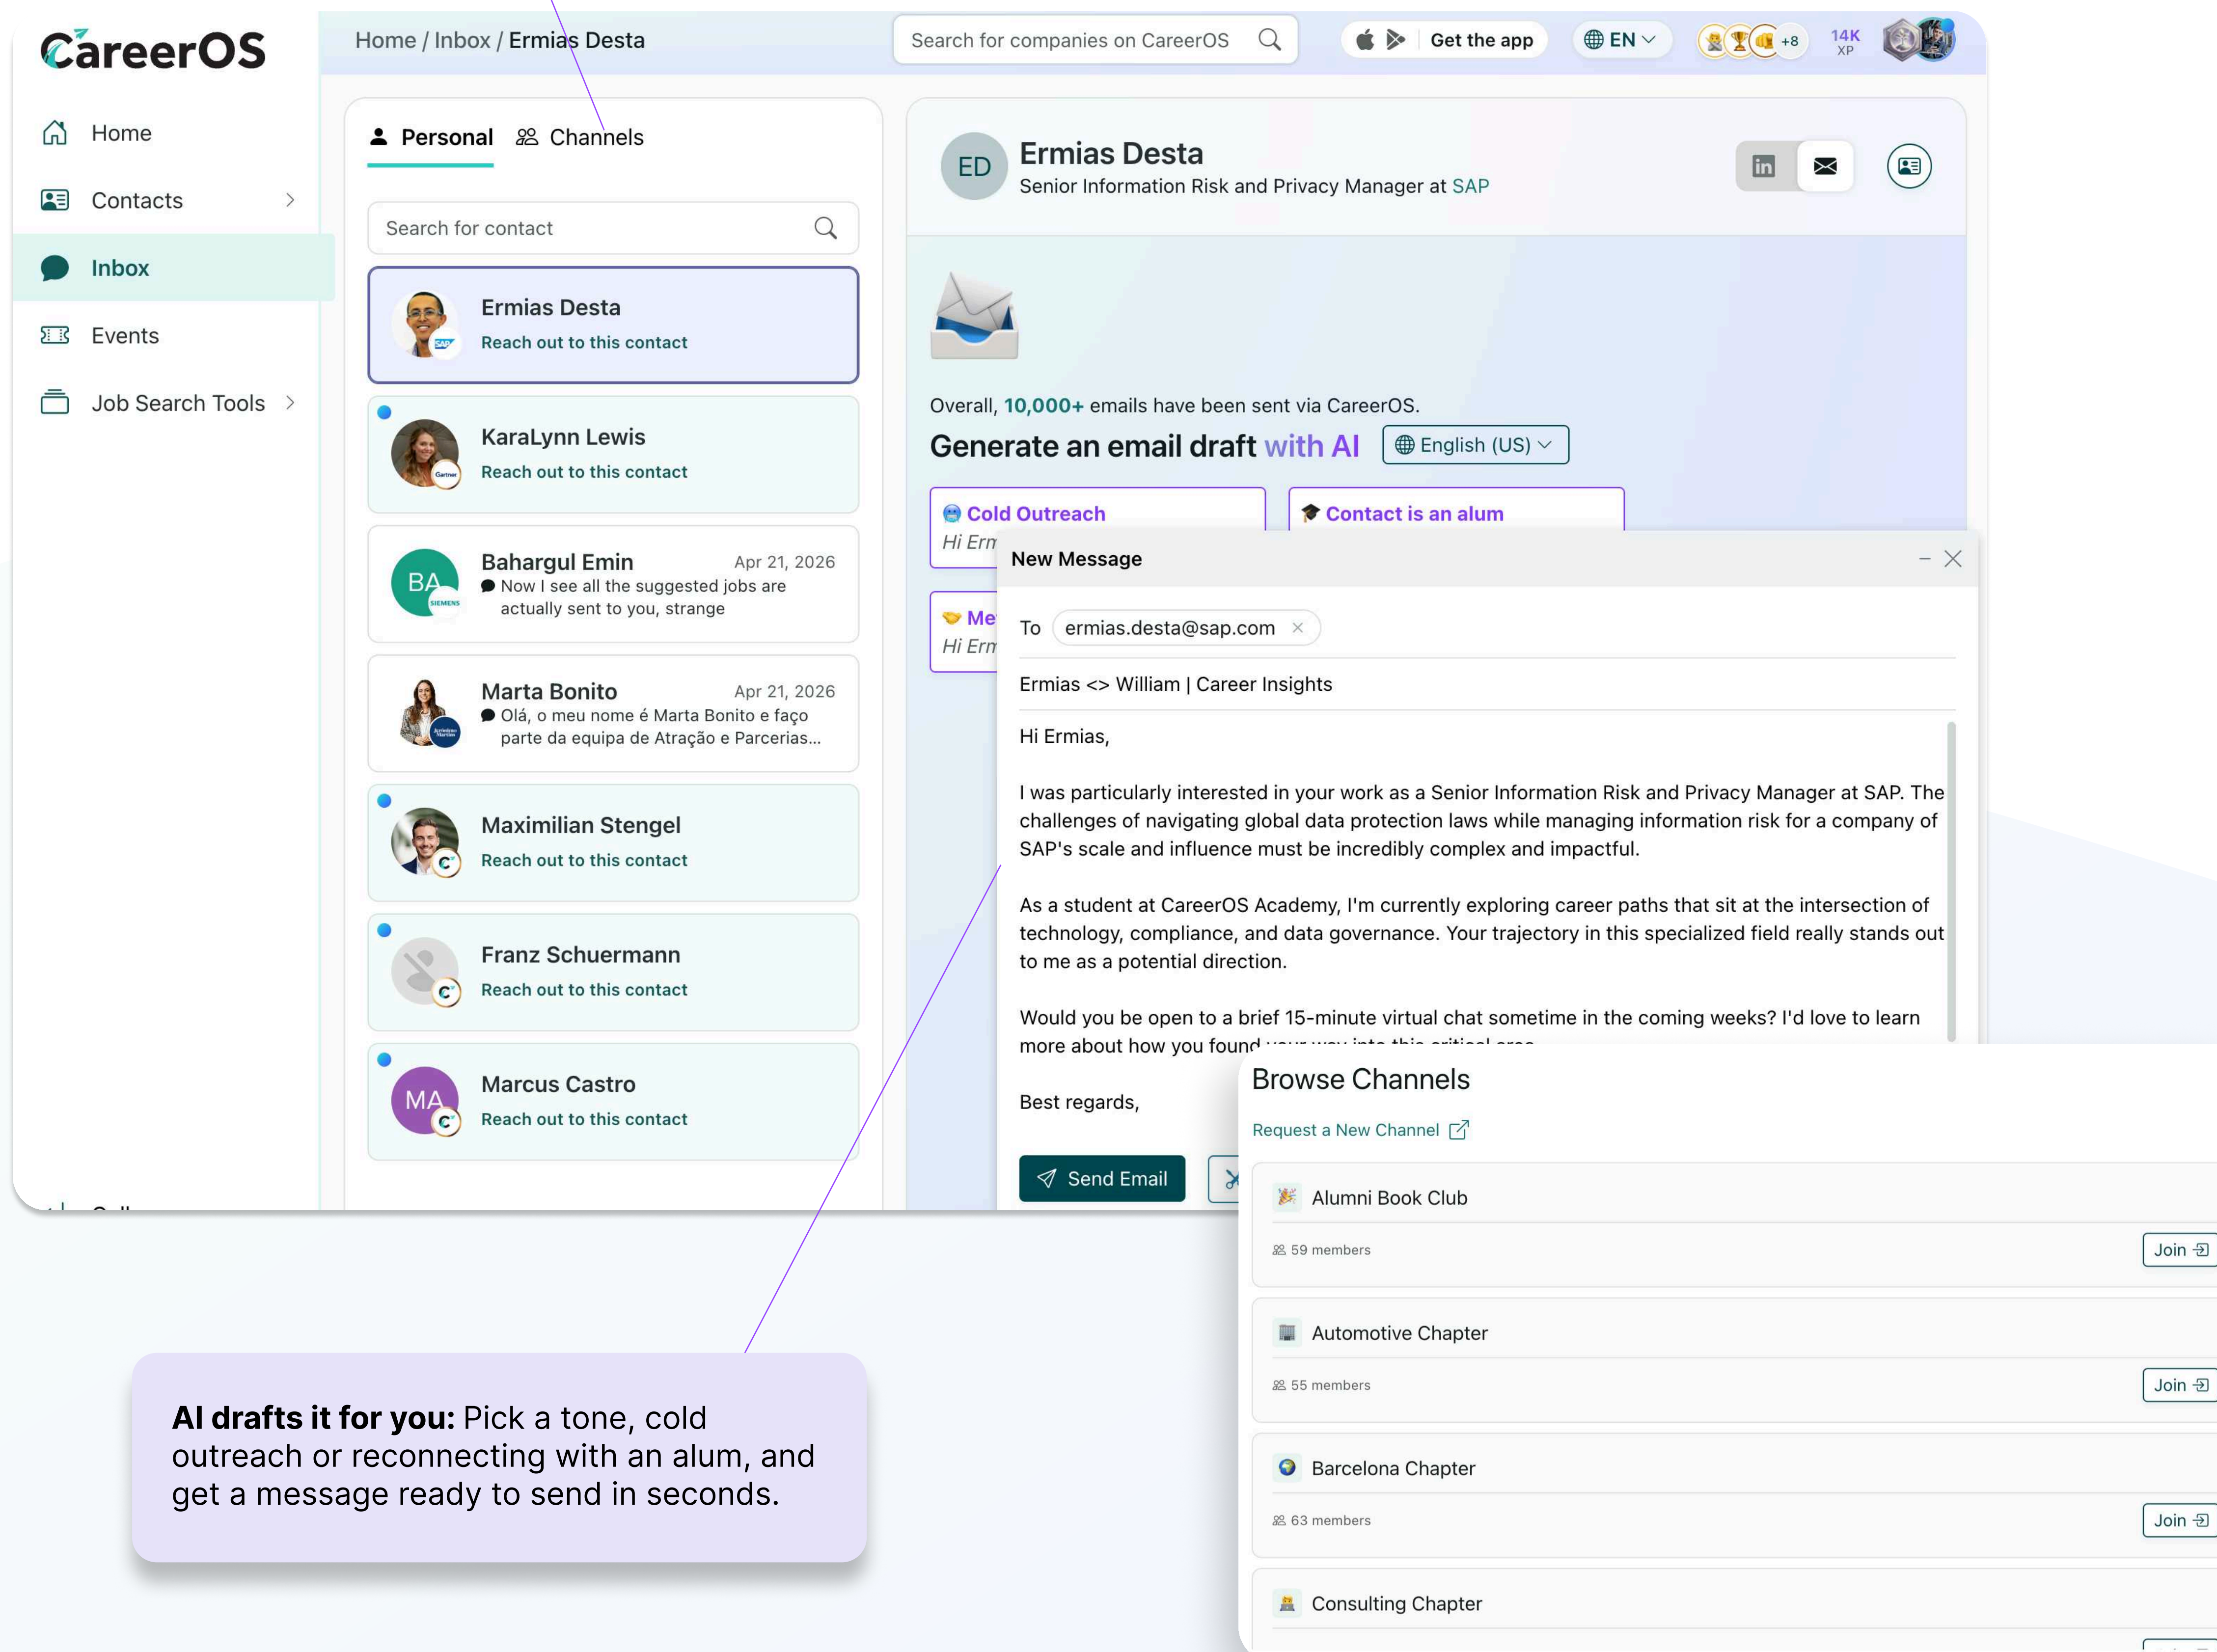

Message your contacts directly, and let AI draft the first version so you are never stuck on how to start.

Virtual Tour 

Video Tutorial 

Join the conversation:

Jump into group channels like your alumni book club or city chapter to meet people beyond 1:1 outreach.

The screenshot displays the CareerOS web application interface. On the left is a sidebar with navigation links: Home, Contacts, Inbox (highlighted), Events, and Job Search Tools. The main content area is titled 'Home / Inbox / Ermias Desta'. It features a 'Personal' tab and a 'Channels' tab. Below these is a search bar and a list of contacts with 'Reach out to this contact' buttons. The contact list includes Ermias Desta, KaraLynn Lewis, Bahargul Emin, Marta Bonito, Maximilian Stengel, Franz Schuermann, and Marcus Castro. A 'New Message' modal is open, showing a draft email to 'ermias.desta@sap.com'. The draft includes a subject line 'Ermias <> William | Career Insights' and a body of text. A 'Send Email' button is at the bottom of the modal. To the right of the modal is a 'Browse Channels' section with a list of channels: Alumni Book Club (59 members), Automotive Chapter (55 members), Barcelona Chapter (63 members), and Consulting Chapter. A 'Join' button is next to each channel name.

AI drafts it for you: Pick a tone, cold outreach or reconnecting with an alum, and get a message ready to send in seconds.

Events

Walk into every event already prepared.

Never miss what is next: Interviews, masterclasses, and workshops, all in one place with countdowns to each one. See which companies are attending, what jobs are linked to the fair, and what is coming up next.

Sovrano AI

Cover Letter - Global Graduate in Finance

Modern tone

Make it yours.

Refresh

July 29, 2026

Dear BAT Hiring Team,

My work at Deloitte, building an Excel-based market sizing model to deliver data-backed entry recommendations for senior partners, showed me the immediate strategic value of financial analysis. This direct impact, from projecting a 12% reduction in operating expenses for clients to shaping market entry strategies, prepares me well for the analytical rigor and strategic project work within BAT's Global Graduate in Finance program.

My background includes developing a strong analytical mindset through hands-on financial modeling and market research. At Deloitte, I applied this by analyzing client financial statements across three mid-market accounts, identifying opportunities that contributed to a proposal projecting a 12% reduction in operating expenses. Furthermore, my ability to collaborate across teams was essential when coordinating weekly stakeholder check-ins with a 5-person consulting team, which meeting prep time by 30%.

During my internship at Deloitte, I distributed financial data to the finance director detailed how a single high-stakes financial judgment shapes high-stakes numbers. This proactive approach to financial analysis, truly resonates with my previous contributions to significant transformations.

The notes below point out where the letter is vague and where adding a specific detail from your own experience would make it stronger.

1 Your Deloitte experience with the market sizing model and cost-saving projections effectively anchors this opening to the role's analytical and strategic demands. Nothing more needed here.

2 This paragraph effectively uses your 12% reduction in operating expenses and 30% meeting prep time cut to demonstrate analytical and strategic project work.

Your personal experience with a 5-person consulting team, which meeting prep time by 30%.

Shape your letter

Your job and resume are set. Pick a tone and add anything personal before you generate.

Choose a tone

Sets the voice of your letter. You can change it and regenerate anytime.

Modern DEFAULT
Professional but natural. Fits most roles and industries.

Corporate
Formal and measured. Best for finance, law, and consulting.

Bold
Confident and direct. Leads with your strongest results.
